ABOUT MYSELF

UI/UX designer with 4 years of experience crafting intuitive, user-first digital products. Skilled in bridging design and front-end development for seamless implementation and collaboration. Currently exploring how AI can enhance user flows, personalization, and design systems.

WORK EXPERIENCE

Corbado – Munich, Germany

City: Munich | **Country:** Germany | **Website:** <https://www.corbado.com> | **Business/sector:** Information and communication

User Experience Designer

[01/11/2023 – Current]

- **Led end-to-end design** for Corbado's **enterprise developer dashboard**, making complex identity workflows simple and intuitive for large-scale integration teams. Delivered high-fidelity visuals, interaction specs, and design tokens aligned with system architecture.
- **Designed and developed** four essential tools to streamline passkey adoption across enterprise-scale platforms (Web, iOS, Android): [State of Passkeys](#), [Passkeys Analyzer](#), [Passkeys Demo](#), [Passkeys Debugger](#). Tools were crafted using Figma, Next.js, HTML, CSS, and JavaScript to ensure accessibility, responsiveness, and developer usability.
- Structured the main website and optimized marketing pages (FAQ, pricing, blogs) to improve **SEO and engagement**, and designed a passkey cheat sheet that increased user retention through clarity and ease of use.
- **Created B2B-focused content** like motion graphics and social media visuals for platforms including LinkedIn and Product Hunt, helping to stand out in the enterprise identity space.
- **Impact:** Helped position Corbado as a leading passkey enabler for enterprise teams, increased developer onboarding efficiency, and expanded adoption among regulated industries and government clients.

Technische Hochschule Ingolstadt – Ingolstadt, Germany

City: Ingolstadt | **Country:** Germany | **Website:** <https://karunasolanki.com/projects/sahyog> | **Business/sector:** Information and communication

Master Thesis - UX Researcher & Designer

[01/04/2024 – 18/01/2025]

- Conducted **in-depth UX research** to design Sahyog, a digital educational resource app aimed at empowering Indian families caring for elderly members with Alzheimer's symptoms.
- Carried out **field research** at Care Center (India) with interviews and observations to uncover key caregiving challenges, needs and pain points.
- **Utilised Grounded Theory and thematic analysis** to translate real-world insights into actionable design principles. Designed and iteratively tested a high-fidelity mobile prototype through remote usability testing and screen recordings.
- Developed app features including pre-diagnosis alert tests, gamified scenario cards, nearby care center search, and a secure community-driven support space.
- **Focused on accessibility**, trust, and cultural relevance, using Figma, Adobe Suite for design and synthesis.
- **Impact:** Project demonstrated measurable success in improving user's understanding of Alzheimer's and confidence in caregiving through feedback analysis.

 **Self Employed** – Jodhpur, India

City: Jodhpur | Country: India

Web/UI Designer

[01/03/2022 – 12/02/2023]

- **Designed and developed** an e-commerce website for a local client using HTML, CSS, and Bootstrap, leading to a **15% increase in online orders** within the first month.
- Created the UX for “Hire,” a job platform aimed at streamlining the hiring and job search experience, improving user navigation and conversion.
- **Conceptualised and designed** “Bond - An Audiobook,” a storytelling app featuring **ML-powered personalised AI voices** to help users stay emotionally connected with distant loved ones.
- **Designed marketing assets** including brochures, flyers, and presentations, resulting in higher customer engagement and brand recall.

 **Tata Consultancy Services** – Ahmedabad, India

City: Ahmedabad | Country: India | Website: <https://www.tcs.com> | Name of unit/department: Revenue Assurance - Business/sector: Information and communication

User Experience Engineer

[11/03/2020 – 02/02/2022]

- Led the automation of **UX workflows**, improving operational efficiency in the telecom domain.
- Collaborated with cross-functional teams to optimise network and mediation processes, ensuring system integrity with design compliance.
- **Ensured revenue integrity** by analysing and optimising key processes across networking, CDR, mediation, and billing systems.
- Developed scripts to automate workflows using Hadoop framework, MySQL and monitored KPI's to detect discrepancies. Therefore, **improved operational efficiency** and reduced revenue leakage.

RECOMMENDATIONS

Name: Vincent Delitz | Managing Director at Corbado

As a UX Designer at Corbado GmbH, Karuna Solanki has demonstrated exceptional skills in UX design and a deep understanding of user-centric design in the Identity & Access Management domain. She led the design of key tools for passkey integration (State of Passkeys, Passkeys Analyzer, Passkeys Demo, Passkeys Debugger), enhanced developer panel UX, optimised SEO-relevant web pages, and created engaging data visualisations and content for social media platforms. She consistently exceeded expectations with her structured, efficient, and proactive approach. She is a valued team member known for her professionalism, strong problem-solving skills, and positive collaboration with colleagues and stakeholders.

E-mail: vincent.delitz@corbado.com

Name: Alay Ponkiya | Manager, Revenue Assurance at TCS

Working with Karuna had been a pleasure. She has a talent for turning complex ideas into smooth, intuitive user experiences. With her strong grasp of both design and front-end development, she bridges teams effortlessly. Her attention to detail, care for accessibility, and clean code always shine through. Beyond her skills, Karuna brings empathy, clear communication, and a genuine drive to work and make both the product and the process better. Any team would be lucky to have her.
